

HAWORTH

# Very

Seating

When you spend 90 percent of your time at work indoors, health and well-being are a top priority—and an important strategy for recruiting top talent. People accomplish a variety of tasks throughout the day. Comfortable, ergonomic seating enables them to feel well and perform their best.

Very seating features chairs and stools for private offices, conferencing, cafeterias, medical centers, classrooms—and all points in between. It's a multi-dimensional family with a broad application range, fresh scope of color, essential ergonomics, and comfort—proving you value your people and how they feel at work.

## Foundational Research

Haworth collaborates with ergonomic research and development partners to understand the physical relationship between a person and a seating surface. We applied this knowledge to create Very seating—ergonomic, sustainable solutions that solve a problem organizations deal with every day: how to best support people while seated at work.

## Universal Appeal

Born out of global design and science-led comfort, Very seating offers personalized comfort for a variety of seated activities while supporting an organization's sustainability strategies. Users will appreciate versatility in function; designers will welcome visual consistency throughout the building.

### A Chair for Every Purpose

From simple comfort to high ergonomic performance, there's a Very chair for everyone. The task chair was designed with patented lumbar support, asymmetrical control, and supportive mesh to enhance comfort. Easy-to-use adjustments let each person tune the chair to fit their needs. Very seminar and conference chairs provide intuitive recline and side-to-side torsional flex to increase mobility and comfort.

### Design Choices

Whether you prefer quiet sophistication or a colorfully eclectic personality, Very seating can highlight any style with its impressive array of colors, materials, and finishes. A variety of add-ons are available to meet specific needs.

## **Aligning People and Space for Optimal Performance**

Your people, organization, and facilities are at the center of everything we do. We help create spaces that solve for your business needs—resulting in effective people and efficient use of real estate.
