

# Epure

Workspace reorganizations are regular and need to be efficient. Companies are looking for furniture which can easily support their moving organizations. That's why they need flexible and agile furniture. The idea behind Epure is to offer functional solutions that suit the different workstyles thanks to a wide statement of line.

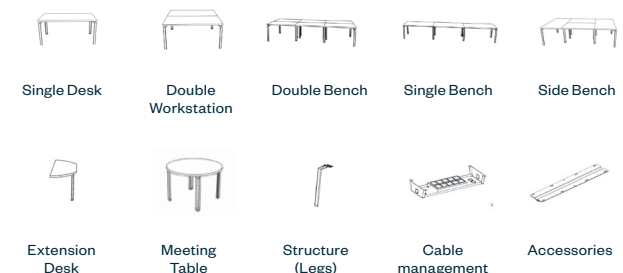

## Features

- Epure's beamless structure means that a variety of organic shapes can be easily created.
- Diabolo® Knob for leg and top installation makes the reconfiguration easy and simple.
- The angled design leg provides Epure an architectural visual experience and the timber leg supports softer residential aesthetic.
- A wide variety of top shapes and configurations can be created to support variety of applications and settings.

## Design

Emmanuel Dietrich

## Statement of Line
