

PlanesTM

Award
2007 Best of NeoCon Gold, Casegoods

Planes' simple design hints at its European influence and creates harmony with a variety of furniture lines and interior environments. A multitude of options lets you pair the top and leg designs that complement your desired aesthetic. Sophisticated or athletic — one table or an entire room — Planes adapts to precisely what you need.

Created by Haworth Design Studio and Daniel Figueroa of Bad Munder, Germany, Planes answers a global appeal for crisp, clean design.

HAWORTH®

Planes

Aesthetic Alignment

The Planes Collection design extends from tables and credenzas to podiums and carts, outfitting any environment completely and consistently. The finished space looks impeccable yet Planes is surprisingly economical. To maintain the clean look, Planes incorporates a variety of thoughtful details that support your day-to-day technology needs. Cable management integrates into structural support, and a variety of power hatch shapes and configurations easily accommodate voice and data.

One Room

Designed as a kit of interchangeable parts, Planes can be configured and reconfigured to support a wide variety of applications. Arrange in a V for media presentations, create a generous conference table for informal teaming, or set up in rows for a formal speaker environment — use Planes in the way you need it today.
