

Audience Executive

Introducing Audience Executive

The Audience Executive range delivers a modern take on executive furniture. This unique collection is firmly anchored in a contemporary style without sacrificing functionality and the integration of technology.

The executive table is a tribute to the traditional stand-alone desk on two pedestals. The hanging storage units conceal a projector, permitting impromptu or confidential meetings from the comfort of your office.

The Audience Executive and Audience Conference ranges are the perfect blend of elegance and functionality to support contemporary commercial and home office areas.
