HAWORTH

Conferencing rooms connected to technology

Similar to a fingerprint, a conference table is unique. Audience is a program “a la carte” offering a customized answer to each conference space: integrated technology, functionality and image are foremost in our design.

It is offered in a wide range of finishes and shapes: boat, U-shaped and round.

HAWORTH

Experience in quality production

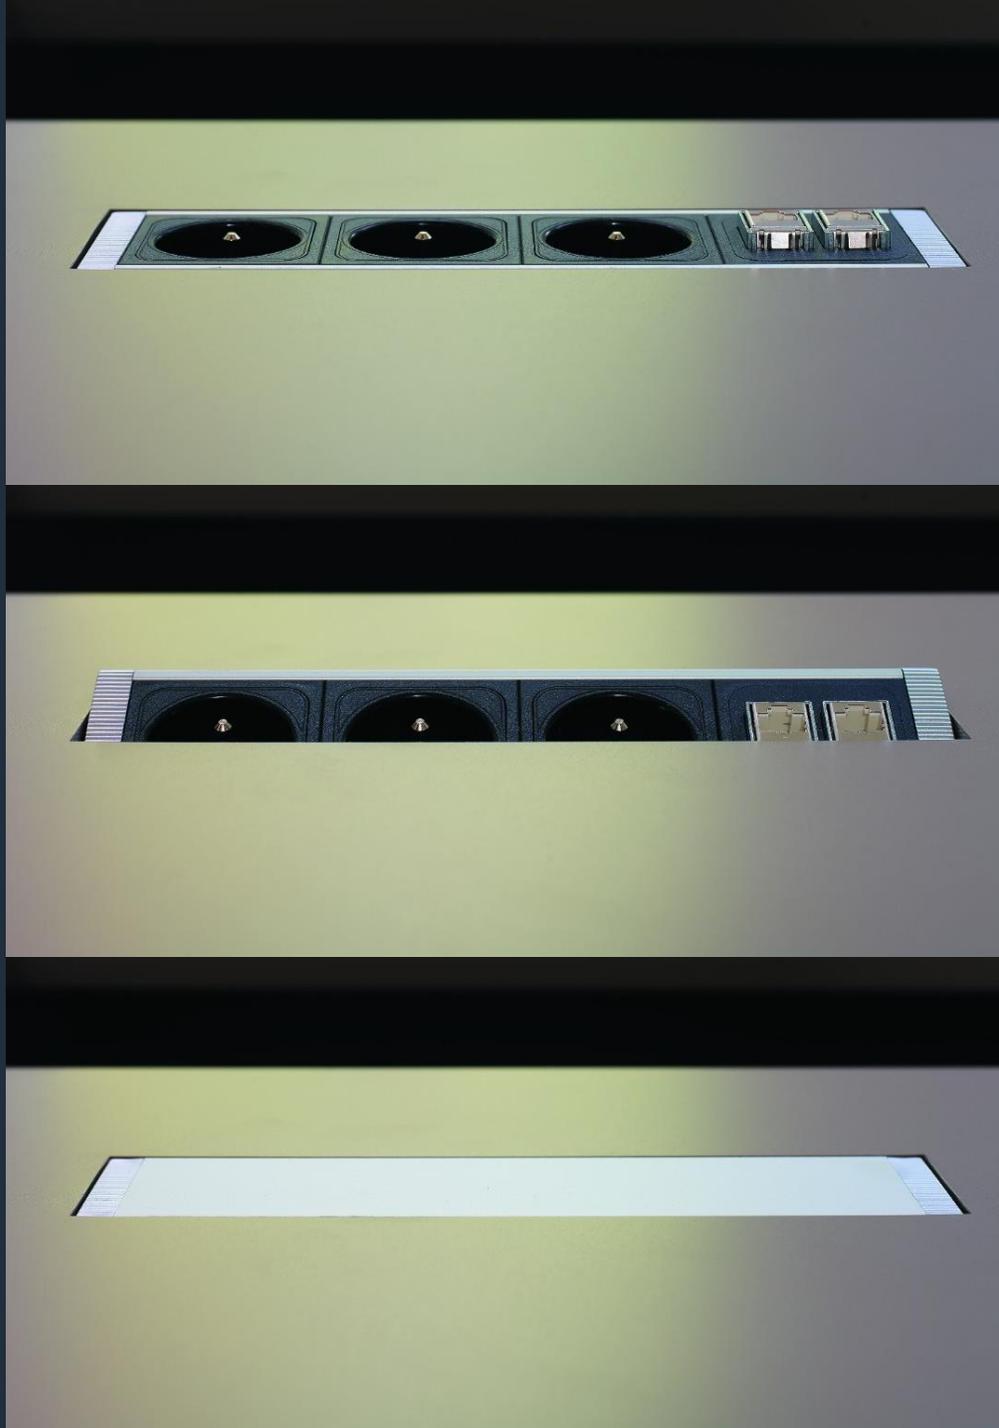

Audience boasts a heritage of more than 60 years in top-of-the-range veneer work. Walnut, oak, cherry, maple... veneers are selected carefully and are sourced from sustainably managed forests where the environment is respected and its renewal looked after.

Design Albert Holz.

Features

- Charles Eames homage and 60s design references in the legs' characteristics.
- Rotating power socket
- Vertically retractable power socket
- Round, boat or U-shaped options
