

Peek & Boo

Peek and Boo reflect the change towards a comfortable, informal working environment where single person work booths are the norm.

Peek and Boo can be used independently to create private spaces in open plan environments, or alongside each other to enhance collaborative working.

Features

- Ideal for collaborative and touchdown areas as well as open plan and small spaces
- Compatible with height adjustable Flamingo table
- Seat and back constructed from timber frame and CMHR foam
- Swivel base plate with felt pads
- Fixed lumbar cushion
- Sprung seat
- Seat and lumbar can be upholstered in any fabric or leather
- Twin stitch detail
- Peek screen can be upholstered in any fabric (except leather or vinyl)
