

## BuzziSpot

BuzziSpace | BuzziSpace Studio | 2009

Streamlined and curvy, BuzziSpot is the perfect add-on for every meeting room, open floor plan, or social space. Light and fun, this little pouf exists in a smooth flat or three-dimensional rib finish in lots of neutral and accent colors. BuzziSpot is filled with acoustic foam to absorb and diffuse sound in open areas, and is blissful to sit on.
