

## Features and Specifications

### Lounge Chair, Sofas, Curved Lounge, Corner Lounge, and Benches

The lounge units are constructed of Baltic Birch plywood and structural foam. The seat cushions are a combination of fiber covered cut polyurethane foam and molded polyurethane foam. The back cushions are fiber covered cut polyurethane foam. The arm cushions are a combination of molded and cut polyurethane foam. Lounge units are fully upholstered with a specifiable top-stitch thread. The interior and exterior can be upholstered in two different surfaces. The legs are made of die cast aluminum and available in a painted or polished aluminum finish. The legs have polyamide plastic glides for strength and wear resistance. The lounge chair and sofa units offer an optional powered storage drawer incorporated in the armrest(s). The drawer is constructed of Baltic Birch plywood with a clear, low-gloss finish. The drawer face is upholstered in the same material as the armrest. The drawer incorporates a power module with a 10 foot cord that includes two power outlets and one USB port.

### Alignment Bracket

Alignment brackets are used to align one Lyda component to another and should be installed after the units are in place. Each alignment bracket kit includes one plate, four screws, and assembly instructions. One kit will align two Lyda components together. The alignment bracket cannot be used to combine two units with arms together or to combine a unit with one arm to a unit with an open end.

### Undermount Power Modules

The separately specified undermount power module provides under seat power consisting of either one or two simplex outlets (NEMA-5-15R) and one dual USB port. The undermount power module must be installed along the front edge of the seat. Power modules may not be daisy chained together. The undermount power module is available either corded or hardwired with a 6 or 12 foot cord. Included with the module are two cord management clips, mounting brackets, and attachment hardware. Application may require approval from local authority having jurisdiction (AHJ); ensure compliance before placing orders and installing.

## Additional Notes

Handedness is determined by the user when seated.

Lyda tables compliment Lyda seating and can be used either freestanding or integrated into a modular lounge configuration.

Lyda is GREENGUARD Gold certified.

Meets ANSI/BIFMA X5.4 Standard for Public and Lounge Seating.

## Surfaces

### Upholstery

For a complete list of upholstery options, please refer to [surfaces.haworth.com](https://surfaces.haworth.com).

### Stitch Thread

Accent Orange (NS-IE)  
Black (NS-F)  
Plaster (NS-PLS)  
Rusty Red (NS-RR)  
Sand (NS-SN)

### Leg Polished Aluminum

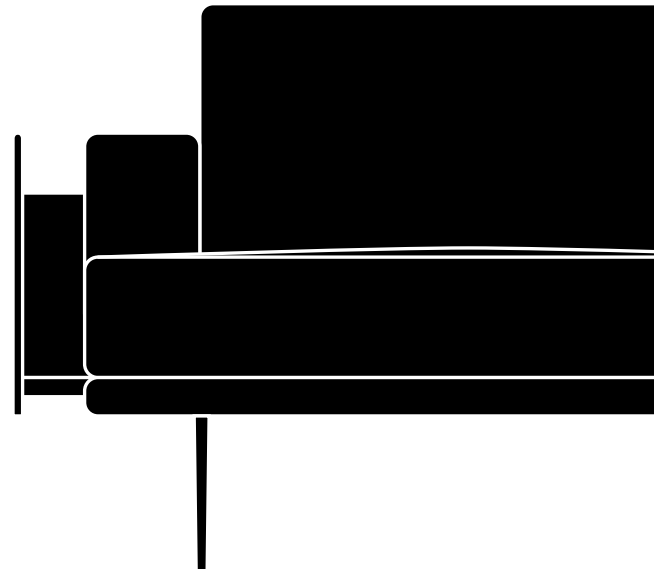

Polished Aluminum (PM-P)

### Leg Paint Grade A

Black (TR-F)  
Smooth Plaster (TR-PLS)

### Leg Paint Grade B

Black Matte (TR-M1)  
Rusty Red (TR-RR)  
Sable (TR-1M)  
Smooth Plaster Matte (TR-M2)

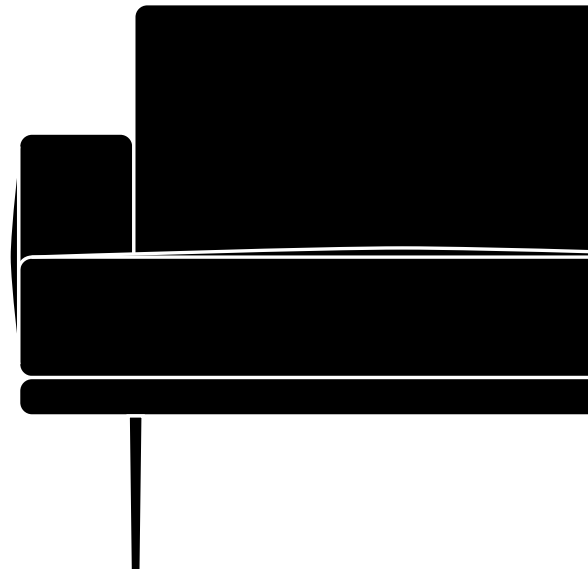

## Additional Notes

Fabric is applied railroaded to Lyda products. Linear or patterned fabric is not recommended due to the manner in which fabric is applied, as material will not be pattern matched. Lyda features large, flat surfaces, and textile crispness will be influenced by the amount of stretch in each textile. Some textiles will stretch more than others, resulting in a small amount of pooling. This can be addressed by running a hand across the surface to smooth the material.
